SUMMARY

Since my early beginnings in the field of computer science, I have been passionate about software design and system architectures. During my studies, I acquired knowledge in several programming languages and gained practical experience through software projects, with a strong focus on object-oriented programming.

In addition, I worked as a web developer, where I was responsible for developing and maintaining an e-commerce platform. This role strengthened my expertise in building scalable web applications, implementing business logic, and designing robust system architectures in a production environment.

WORK EXPERIENCE

01/2026 - Present

Software Developer

CHECK24 Vergleichsportal Profis GmbH - Berlin

Working on modern web solutions and at the intersection of web and native app development, focusing on building seamless and performant user experiences across all devices.

10/2025 - 01/2026

Junior Software Developer

CHECK24 Vergleichsportal Profis GmbH - Berlin

Working on modern web solutions and at the intersection of web and native app development, focusing on building seamless and performant user experiences across all devices.

EDUCATION

2024

Bachelor of Science Informatik

Technische Universität Berlin - Berlin, Deutschland

Mathematics and Informatics

Bachelor's thesis on the topic "Generating Classified Task Sets for the Evaluation of Real-Time Scheduling Algorithms." Final grade: 1.8.

2019

Allgemeine Hochschulreife / Abitur

Marie-Curie Gymnasium - Dallgow-Döberitz, Deutschland

-

From 2011 to 2016 at Leonhard-Wagner-Gymnasium, Schwabmünchen, Germany.

From 2016 to 2019 at Marie-Curie Gymnasium, Dallgow-Döberitz, Germany.

Final grade: 1.4.
